Frontend Developer | React • Next.js • TypeScript • Tailwind CSS

PERSONAL SUMMARY

Detail-oriented Frontend Developer skilled in building responsive, accessible, and high-performance web applications using React, Next.js, TypeScript, Tailwind CSS, and Redux. Experienced in translating Figma designs into pixel-perfect interfaces, integrating REST APIs, and collaborating across teams to deliver clean, maintainable, and scalable code. Passionate about creating intuitive user experiences, writing reusable components, and continuously improving through learning and innovation.

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React.js, Next.js

Styling: Tailwind CSS, Responsive Design

State Management: Redux, Context API

Version Control & Tools: Git, GitHub, Vercel, Netlify

Practices: API Integration, Performance Optimization, Cross-Browser Compatibility, Agile Collaboration

EXPERIENCE

BLINK

Remote

Frontend Developer

February 2024 to Present

- Developed interactive, secure payment interface components using **React**, **HTML**, **CSS**, and **Tailwind CSS**, ensuring responsive behavior across devices and browsers.
- Implemented client-side form validation, error handling, and real-time feedback to improve user trust and reduce friction in the signup / transaction flows.
- Optimized performance by reducing bundle size, lazy-loading non-critical assets, and minimizing render-blocking resources, resulting in faster page load and improved user engagement.
- Collaborated with backend engineers to integrate RESTful APIs / webhook services for transaction processing, authentication, and user account management.
- Ensured high standards of UI/UX consistency by building reusable components (buttons, inputs, modals) and maintaining style guidelines.
- Participated in code reviews to maintain code quality.

SKY VENTURE

Remote | Contract

Frontend Developer

October 2024 to February 2025

- Developed and maintained responsive web interfaces using **React**, **HTML**, **CSS**, and **Tailwind CSS**, ensuring seamless performance across all devices.
- Translated Figma designs into pixel-perfect, reusable components to enhance development speed and maintain visual consistency.
- Implemented lazy loading and code splitting to improve load times and optimize application performance.
- Collaborated closely with designers and backend developers to refine UI/UX and integrate APIs efficiently.
- Contributed to component libraries and streamlined project structure for easier maintenance and scalability.

TAXITY

Remote

Frontend Developer Intern

June 2023 to March 2024

- Developed and maintained mobile-responsive UIs to support a transport service platform.
- Collaborated with designers and backend teams to ensure seamless integration and functionality.
- Used React, Tailwind, and Redux to improve UI scalability and maintainability.
- Applied version control best practices using Git for smooth team collaboration.

HNG

Remote | Internship

Frontend Developer Intern

November 2022 to January 2023

- Participated in a competitive internship program focused on real-world frontend development using **HTML**, **CSS**, **JavaScript**, and **React**.
- Built and deployed multiple individual and group projects across various program stages, demonstrating strong collaboration and problem-solving skills.
- Worked in an agile environment with team members to design and develop a fully functional web application, handling UI implementation and API integration.
- Gained hands-on experience with **Git**, managing branches, resolving merge conflicts, and contributing to shared repositories through pull requests.
- Applied best practices in component structure, responsive design, and state management to improve maintainability and scalability of projects.

HAVILAH FUSION TECHNOLOGIES

Onsite | NYSC

Frontend Developer Intern

March 2022 to November 2022

- Began hands-on journey into frontend development during the NYSC program, building a solid foundation in **HTML**, **CSS**, and **JavaScript**.
- Assisted senior developers in implementing UI changes, fixing bugs, and improving user interactions across existing web applications.
- Developed simple, responsive web pages and contributed to styling and layout adjustments under supervision.
- Gained practical experience consuming APIs and connecting frontend interfaces to backend data.
- Strengthened understanding of code structure, version control, and collaboration workflows using **Git**.

EDUCATION

B.SC. COMPUTER SCIENCE

2017 - 2021

Nile University of Nigeria, Abuja, Nigeria | Second Class Upper
